

BLONDE

AMMONIA FREE HIGHLIGHTING MECHES

Finally the Lightening System you have all been waiting for!

Blonde is an ammonia free highlighting system with an advanced on scalp formulation, featuring our unique DATEM™ Technology. Blonde will give up to 5 levels of lift in 15 minutes under gentle heat (40 - 42°C / 104 - 108°F) DO NOT USE HEAT WHEN APPLYING ON SCALP. It is a gentle alternative to bleach, offering superb lift with low volumes/percentages of developer, leaving the hair in excellent condition. Blonde is ideal for use as a pre-lightener before toners or colour.

- DATEM™ Technology - enables maximum lift to be attained in 15 minutes with gentle heat (40 - 42°C / 104 - 108°F) with no damage (OFF SCALP USE).
- Any highlighting technique can be used with Blonde, e.g. foils, meches, caps etc.
- Blonde's unique formulation makes the product easy to mix. It's pleasant perfume and creamy mix ensures easy application and a pleasant experience for your client.
- Blonde can be used with all volumes of developer - 3%, 6%, 9% or 12% (9 + 12% are not recommended for on scalp use).

Mixing and Application

- Mix in a non-metallic bowl. Apply immediately after mixing to unwashed hair using your desired highlighting method, e.g. foils, meches, caps, etc.
- Mix 15g/0.51oz cream with 1 sachet (25g) of Blonde Meches Powder using 15 to 30g/1.01oz of your chosen Affinage Crème Developer according to desired consistency.

Important

DO NOT apply to the scalp if there are any abrasions or signs of irritation. Always use protective gloves.

Processing Times

Process under gentle heat (40 - 42°C / 104 - 108°F), off scalp application, for up to 15 minutes or up to 30 minutes with no heat.

Removal

- Rinse thoroughly.
- Shampoo and condition with Infiniti ColourCare shampoo and conditioner.
