

INFINITI

INSTANT PRE-PIGMENTATION

Infiniti Instant Pre-Pigmentation - the Fastest Way to Revitalise Tired Colour

Infiniti Instant Pre-Pigmentation Spray & Gel are easy to use, Pre-Pigmentation products for full head correction work and partial re-colouration, i.e. foiling, meches, etc.

- Use on faded colour before refresh application.
- Built in porosity equaliser for more even and intensive colour results.
- Can be used to enhance Red, Copper and Gold.
- Can be used with any brand of permanent hair colour.
- Helps to reduce colour fade.

Instructions For Use

RED - for use before red, violet or mahogany shades or re-colouring back to base shades 1.0 to 5.0

ORANGE - for use before copper shades or re-colouring back to base shades 6.0 to 8.0

YELLOW - for use before gold shades or re-colouring back to base 9.0 to 10.0

Application

Choose your application method:

Spray - Ideal for fast application on larger areas.

Gel - Ideal for precise application on foils and meches.

1. Apply sparingly to dry hair.
2. Massage in, concentrating on the most porous areas. **DO NOT RINSE**. Remove excess product with paper towel. Overloading of Infiniti Instant Pre-Pigmentation can prevent penetration of colour pigment.
3. Apply chosen permanent or tone on tone shade, and process according to manufacturer's instructions.

The table below indicates correct choice of Infiniti Instant Pre-Pigmentation depending on the target depth:

Target Depth	Colour
10, 9	Yellow
8, 7, 6	Orange
5, 4, 3, 2, 1	Red
